

ZAIN TECHNOLOGY- MAKING IT WORK FOR YOU.

Zain Technology Computers LLC is an emerging top-notch IT infrastructure service provider equipped with experience and intelligence to cater to all your IT-related needs. Since its inception in 2019, Zain Technology has kept up with cutting-edge hardware and software solutions. Our infrastructure consists of a well-equipped office and spacious service lab. Our team includes well-trained, skilled, experienced service engineers and technical personnel.

Zain Technology's area of expertise includes sales and service of Desktops, Laptops, Servers, Printers, UPS, Structural Cabling Solutions, Networking Devices, CCTV Camera Systems, Firewall Security devices, Biometric Attendance Machine, Access Control Systems, etc. We deliver unmatched business value to customers through process excellence, quality frameworks, and service delivery innovation.

VISION

Empower budding start-ups, established organizations, conglomerates, and other institutions with excellent quality and foolproof IT infrastructure and services.

MISSION

To provide international standard IT and electronic security and infrastructure solutions to all kinds of complex needs that stay within the client's budget.

OUR VALUES

Relevance:

We strive to stay abreast with the latest technology and tech know-how to offer the best solutions to our clients.

Transparency:

Being a reliable and trusted name in the IT space, we practice transparency in everything we do and undertake.

Professionalism:

From product installation/service delivery to after-sale service, we maintain a high standard of professionalism.

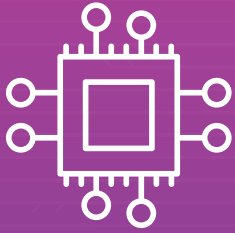

Commitment:

We have a highly dedicated team committed to catering to IT needs and offering solutions.

QUALITY – IT ACES OUR PRIORITY LIST

At Zain Technology, we believe that if we take care of the quality of our offerings, it will take care of our business. We give paramount importance to quality while delivering our services and products. The top-notch quality of our solutions helps us stand out from others.

TECHNOLOGY – LEVERAGING STATE-OF-THE-ART TECHNOLOGY

Harnessing the potential of the latest technology to build IT solutions and products that solve problems on the ground root level. Always keeping up with the advancements and changes in technology to deliver nothing but the best to our esteemed clientele.

SERVICE – OFFERING EXCELLENT CUSTOMER SERVICE

Satisfaction is what we aim for while offering our services. Be it installation, IT consultancy, or products' after-sale service; we keep pushing the benchmark of our service quality higher.

LEADING TOWARDS GROWTH & SUCCESS

Mr. Sainulabdeen Saleem, the Chairman, Zain Group of Companies, is a recognized personality in the social and business world of the UAE. His dynamism and experience in various fields are significant assets to the group's well-being. More than a businessman, he is a philanthropist who is willing to be present at every social event in the UAE.

In addition to being the Chairman of Zain Technology, Mr. Saleem is also the Founder & Managing Director of Jamal Travel Agency, a full-fledged travel and tourism service provider in the UAE, and the Founder of the Indian Association of Ras Al Khaimah, an active congregation of Indian families in Ras Al Khaimah.

People are attracted to his vibrant personality and enthusiasm, and he has held the association's presidency since its inception 15 years ago, which is well known to all. The association is active on many charity fronts and acts as an intermediary mechanism that amalgamates the activities of the Indian embassy and consulates in the Northern Emirates.

Mr. Saleem's role as a facilitator of inter-community cooperation is well-regarded, as he enjoys great confidence and respect from all members. Despite being involved in many activities, he is the driving force behind the company's success. Zain Technology has risen to new heights under his professional management and direction.

Chairman, Zain Group of Companies

OUR SERVICES - THE BEST SOLUTIONS THAT YOUR BUSINESS NEEDS

Zain Technology provides IT services and infrastructural support to companies. We have the expertise you need to create your efficient infrastructure and develop a sound basis for effectively managing the company's IT investment. Here's a full range of services and solutions you can avail of to have a robust IT infrastructure for your institution.

ELV AND SECURITY SOLUTIONS

VIDEO SURVEILLANCE SYSTEM

At Zain Technology, we offer comprehensive video surveillance for residential and commercial establishments. Our surveillance systems enhance security by allowing you to watch your property through LIVE videos, a playback system to view recordings, zoom and pan controlling cameras, an online application for images and video sharing, and more.

ACCESS CONTROL SYSTEM

You can now limit access to sensitive areas with our customized access control systems. Our access control solutions provide attendance management solutions for offices and commercial properties. Our services include but are not limited to IP Door Controllers, Budging Solutions, Enhanced Reporting, Time & Attendance, and Multi-Site Management.

QUEUE MANAGEMENT SYSTEM

Now hassle-free manage long queues with our intelligent queue management system. Managing a customer's experience in a queue is essential, and we provide a bespoke queue management solution for all organizations, irrespective of their sizes. Be it a kiosk in a mall or a departmental store; our Queue Management System ensures smooth and efficient operations by minimizing the crowd in the waiting area.

BIOMETRIC ATTENDANCE SYSTEM

Zain Technology provides excellent quality Biometric Attendance Tracker Systems that facilitate fingerprints and ID cards to mark the attendance of employees or support staff. All our biometric attendance trackers render an accurate check-in and check-out time for employees, thus ensuring seamless operations. Easy to install, the attendance trackers are packed with a slew of features that aid in attendance management.

INTERCOM

We offer a robust intercom system based on a thorough site survey. The site examination and scanning help us fully understand your needs and requirements. Our intercom system entails audio & video intercoms, IP intercoms, VoIP intercoms, Nurse Call Systems, Door Entry Control Rooms, and more. Integrating your intercom system with access control and CCTV provides a powerful, multi-layered security combination to keep you secure.

AUDIO/VISUAL SYSTEM

From commercial businesses, schools, conference rooms and more, our acoustic experts will ensure your system matches your space, delivering engineered precision that ensures a clean, crisp message each time. Zain Technology has all the essential solutions that help you immediately deliver your message to everyone.

ICT SOLUTIONS

IT INFRASTRUCTURE

Under our IT infrastructure service umbrella, we provide a wide range of IT hardware, software, and services that are imperative and beneficial for your business growth and success. We work with only the best developers, system integrators, and vendors that produce top-quality IT products.

INTELLIGENT CABLING SOLUTIONS

As a part of intelligent cabling solutions, we help our clients with cable management and electrical raceway, thus ensuring speed, efficiency, bandwidth, and performance improvement. Effective cable management prolongs the life of IT equipment and reduces failure to a great extent. Furthermore, when cables are adequately managed, it reduces signal interferences and keeps cable damages at bay.

NETWORKING SOLUTIONS

We ensure robust and resilient network infrastructure with our end-to-end solutions in network integration. Be it installing a wifi system, cabled and wireless LAN/WAN, or complex network upgrades and mergers, expansions, or new implementation involving routers or servers, we provide solutions related to network design, integration, and management.

PABX SYSTEM

The abbreviation of Private Automatic Branch Exchange, PABX is a telephone system with a switchboard connecting several devices such as telephones, fax machines, answering machines, etc. At Zain Technology, we have a team of trained personnel who are immensely experienced in installing and configuring the PABX system for your commercial establishment or organization.

DIGITAL SIGNAGE

Effective, convenient and cost effective. Support your business through digital signage. Zain Technology offers high quality, easy to use & cost-effective digital signage systems.

VIDEO CONFERENCING SOLUTIONS

With Zain Technology's video conferencing solutions you can: conduct meetings with people across multiple locations without complexity. Zain Technology offers world-class assistance in design, installation, integration and support for all your collaboration spaces.

IT SERVICES

MANAGED IT SERVICES

From monitoring your hardware, and IT infrastructure to upgrading it from time to time to meet your needs, we shoulder the responsibility of your entire IT configuration, management, and maintenance. We strategically plan your IT additions and upgrades, thus making sure that your organization consistently leverages the latest IT hardware and infrastructure for the smooth functioning of the business.

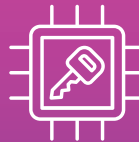

FIREWALL SERVICES

We provide firewall services that safeguard your IT infrastructure from the latest threats. Keep the latest ransomware, malware, virus, and breaches away and secure your valuable data with our firewall. With our firewall, we don't just safeguard your data but ensure your peace of mind.

NETWORKING SERVICES

We ensure robust and resilient network infrastructure with our end-to-end solutions in network integration. Be it installing a wifi system, cabled and wireless LAN/WAN, or complex network upgrades and mergers, expansions, or new implementation involving routers or servers, we provide solutions related to network design, integration, and management.

CYBER-SECURITY SERVICES

Cybersecurity services offered by Zain Technology act as a robust safeguarding mechanism against unauthorized use of your organization's digital assets and data. Our bucket full of cybersecurity services keeps cyber threats, breaches, and digital attacks far north of your IT system. The service head includes encryption, data loss prevention, and brand protection.

IT ESSENTIALS AND INSTALLATION

Under our IT infrastructure service umbrella, we provide a wide range of IT hardware, software, and services that are imperative and beneficial for your business growth and success. We work with only the best developers, system integrators, and vendors that produce top-quality IT products.

RETAIL POS SYSTEM

A holistic retail management system, Zain Technology's Retail POS System is all you need to manage your retail store billing, inventory, purchases, sales, etc. Now manage your SKUs seamlessly and enjoy a hassle-free retail trade experience with our secure, robust, flawless, and easy-to-use POS system. A lightning-fast retail experience awaits you.

HARDWARE PERIPHERALS

Extend the abilities of your computers, laptops, servers, and other hardware with our peripherals. We keep a stock of essential hardware peripherals to ensure your business operations run without hindrance.

HARDWARE UPGRADES

No more obsolete computer hardware! You can avail of low-cost upgrades for your desktop or laptop from Zain Technology. Be it the processor, HDD, RAM, graphics card, or CPU cabinet, get your hands on your system's latest hardware and components. Keep your system updated for an unmatched performance every time.

HARDWARE REPAIR AND MAINTENANCE

Zain Technology boasts an immensely experienced, reliable, and responsive IT Support team to save you from technological interference. With our comprehensive and all-inclusive IT Services, we lend a helping hand in maintaining your IT hardware and infrastructure and keeping everything on track.

SMART EDUCATION SOLUTIONS

INTERACTIVE PANEL

An interactive display makes learning all the more engaging and fun. Our interactive panel displays images from a computer screen and allows tutors and students to interact with them. The panel is cost-effective, bright, and comes packed with oodles of exciting features placed strategically on it. Furthermore, the panel has easy navigation and an appealing interface.

LEARNING MANAGEMENT SYSTEM

A comprehensive learning management system, known as LMS, is an imperative tool for a school or any other educational institution. We provide a full-fledged LMS that entails ample storage for study materials, notes, tools to notify students about further updates, features to communicate with students, learning trackers, reporting, analytics, and many such valuable functionalities.

CONFERENCE SOLUTIONS

Conduct Teacher to Students, Teacher to Parents, or Teacher to Management conferences with just a few taps using our advanced conference solutions. From just audio calling to video chats, screen sharing, and file sharing, the conference solutions offered by Zain Technology let you undertake them all. Our conference solutions support both one-to-many and many-to-one communication.

PROJECTORS AND SMARTBOARD

Zain Technology provides interactive solutions geared specifically towards educators including smartboards, interactive projectors, short-throw projectors, document cameras, and interactive LED/LCD screens.

DIGITAL NOTICE BOARD, ETC.

BUILDING MANAGEMENT SOLUTIONS

BUILDING/ HOME AUTOMATION SYSTEMS

Make your commercial or residential building smart with IoT technologies and advanced digital solutions. Automate functions such as lighting, air conditioners, and security systems with Zain Technology's tried, tested, and enhanced Home/Building Automation Systems. With our automation systems, your space becomes advanced and jam-packed with mind-boggling technology to make life easier.

GUEST ROOM MANAGEMENT SYSTEM

A solution for the hospitality industry, Guest Room Management System enables you to automate various hotel room functions. From light management and drawing curtains to controlling the HVAC system, automate them all and make your customers' stay hassle-free with our comprehensive Guest Room Management System.

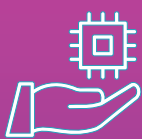

SMART BUILDING INTEGRATION

INTELLIGENT LIGHTING CONTROL SYSTEMS

ANNUAL MAINTENANCE AND SUPPORT

ICT INFRASTRUCTURE AMC

We extend annual maintenance and support (AMC) for IT products and services. Our support includes taking care of the ICT related products and parts after their warranty ends. Under the annual contract, we provide support both on-site and remotely. We continuously monitor and resolve potential issues by leveraging the best troubleshooting techniques.

SOFTWARE /HARDWARE MAINTENANCE CONTRACT

We undertake the management and maintenance contract of your software applications and IT hardware. Keeping the software updated from time to time and upgrading the hardware to match the current standards are some things that fall under the contract. With our annual agreement, we ensure that your IT infrastructure stays at par with all the upgrades and advancements in the IT industry.

MANAGED SERVICES

Our best managed services include consistent monitoring, on-demand IT support, and problem resolution. We offer more support than a traditional IT service, as we provide additional resources such as IT implementation and consulting services.

MEET OUR TECHNOLOGY PARTNERS

Zain Technology aims to offer complete IT solutions under one roof. In this endeavour, we have partnered with reliable and trusted names in the industry to maintain top-notch quality across all our service buckets. We procure resources from our technology partners to assure the end client about quality.

Here's the list of our technology partners.
